

COHESION

7 species · 3 families · 3 classes

Túngara frog (Engystomops pustulosus)

Whine-chuck advertisement call

Sem: sex, long distance

Acc: Complex call with a frequency-modulated 'whine' followed by one or more broadband 'chuc...

Plain-tailed wren (Pheugopedius euophrys)

Contact call

Sem: contact, coordination

Acc: Short, soft call exchanged at close range between pair members or group members.

Crowned monkey / Crowned guenon (Cercopithecus pogonias)

Grunt

Sem: contact, coordination

Acc: Low-frequency, short-duration call, often produced in series at close range.

De Brazza’s monkey (Cercopithecus neglectus)

Grunt

Sem: contact, coordination

Acc: Low-frequency, short-duration call, often produced in series at close range.

Mona monkey (Cercopithecus mona)

Grunt

Sem: contact, coordination

Acc: Low-frequency, short-duration call, often produced in series.

Patas monkey (Erythrocebus patas)

Grunt

Sem: contact, coordination

Acc: Low-frequency, short-duration call produced at close range, often in series.

Talapoin monkey (Miopithecus talapoin)

Grunt

Sem: contact, coordination

Acc: Low-frequency, short-duration call produced at close range.

SOCIAL

3 species · 3 families · 3 classes

Poison dart frogs (Dendrobatidae; various genera)

Aggressive call

Sem: aggression, territory

Acc: Shorter, harsher call produced during male–male interactions.

European starling (Sturnus vulgaris)

Alarm call

Sem: alarm, predator

Acc: Harsh, abrupt call produced in response to predators or sudden disturbances.

Eastern Gorilla (Gorilla beringei)

Scream

Sem: distress

Acc: High-amplitude distress/aggression call.

FORAGING

7 species · 7 families · 2 classes

African grey parrot (Psittacus erithacus)

Begging call

Sem: food, infant

Acc: High-pitched repetitive call produced by juveniles.

Carolina chickadee (Poecile carolinensis)

Begging call

Sem: food, infant

Acc: High-pitched repetitive call produced by nestlings.

Chestnut-crowned babbler (Pomatostomus ruficeps)

Begging call

Sem: food, infant

Acc: High-pitched repetitive call produced by juveniles.

European starling (Sturnus vulgaris)

Begging call

Sem: food, infant

Acc: High-pitched repetitive call produced by nestlings.

White-browed sparrow-weaver (Plocepasser mahali)

Begging call

Sem: food, infant

Acc: High-pitched repetitive call produced by juveniles.

Greater sac-winged bat (Saccopteryx bilineata)

Mother-infant isolation call

Sem: infant, contact

Acc: High-pitched, individually distinctive call produced by pups when separated from mother...

Howler monkey (Alouatta spp.)

Infant distress call

Sem: —

Acc: High-pitched, tonal or noisy call emitted by infants.

DANGER

7 species · 7 families · 2 classes

Chestnut-crowned babbler (Pomatostomus ruficeps)

Alarm call

Sem: alarm, predator

Acc: Sharp, abrupt call produced in response to sudden threats.

European starling (Sturnus vulgaris)

Alarm call

Sem: alarm, predator

Acc: Harsh, abrupt call produced in response to predators or sudden disturbances.

White-browed sparrow-weaver (Plocepasser mahali)

Alarm call

Sem: alarm, predator

Acc: Sharp, abrupt call produced in response to predators or sudden disturbances.

Chacma baboon (Papio ursinus)

Bark

Sem: alarm, predator, long distance

Acc: Loud, abrupt, harsh call audible over long distances.

Common marmoset (Callithrix jacchus)

Tsik (alarm call)

Sem: —

Acc: Sharp, high-frequency call with abrupt onset.

Ring-tailed lemur (Lemur catta)

Alarm call (general)

Sem: —

Acc: Abrupt, loud call; acoustically distinct from contact calls.

Tufted capuchin (Sapajus apella)

Alarm call

Sem: —

Acc: Abrupt, loud call with harsh acoustic structure.
